

Corporate Associates Program

ENERGY RESILIENCE: DRIVING THE ENERGY TRANSITION, PROMOTING ENERGY SECURITY

Member Benefits include:

1. Online Access to Global Reports & Data

EGIconnect is an unparalleled source of global data, including over 900 EGI technical reports, well logs and thousands of km of seismic data.

2. New Research Studies

EGI scientists conduct timely research on energy, minerals, environmental science, and engineering. CA Members help to steer each project and receive a discount up to 25%.

3. Peer Assist with EGI Scientists

Member receives one week of dedicated time from EGI experts on issues of the member's choice, conducted at EGI, virtual, or at a member's location.

4. Training and Field Trip Courses

Membership includes one week of customized training courses and field trips.

5. Energy Transition Briefings

Updates on EGI's cutting-edge geothermal and carbon management research.

6. State-of-the-Art Laboratory Facilities

In-house mineralogical, poroperm, source rock, and mechanical analyses are available to CA members at a discounted rate.

7. Technical Webinars

EGI offers a series of webinars on timely topics related to the industry.

8. Annual Corporate Associates Technical Conference

EGI hosts an annual technical event for CA member companies, where we share and discuss the latest and emerging research.

Annual membership is \$55,000

Questions about the CA membership:
