

## Corporate Associates Program

**ENERGY RESILIENCE: DRIVING THE ENERGY TRANSITION, PROMOTING ENERGY SECURITY**

### Member Benefits include:

**1. Online Access to Global Reports & Data**

EGIconnect™ is an unparalleled source of global data, including over 900 EGI technical reports, well logs and thousands of km of seismic data.

**2. New Research Studies**

EGI scientists conduct timely research on energy, minerals, environmental science, and engineering. CA Members help to steer each project and receive a discount up to 20%.

**3. Peer Assist with EGI Scientists**

Members receive one week of dedicated time from EGI experts on issues of the member's choice, conducted at EGI, virtual, or at a member's location.

**4. Training and Field Trip Courses**

Membership includes one week of customized training courses and field trips.

**5. Energy Transition Briefings**

Updates on EGI's cutting-edge geothermal and carbon management research.

**6. State-of-the-Art Laboratory Facilities**

In-house mineralogical (x-ray diffractometry, SEM, fluid inclusion), poroperm, tracer, source rock, and mechanical analyses are available to CA Members at a discounted rate.

**7. Technical Webinars**

EGI offers a series of webinars on timely industry topics.

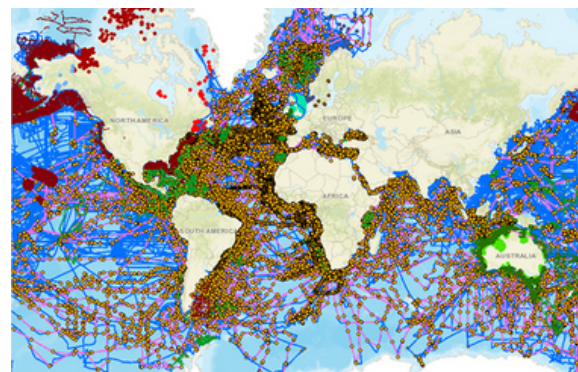

**8. Annual EGI T Technical Conferen**

EGI hosts an annual technical event for CA Member companies, to share and discuss the latest and emerging research.

**Annual membership is \$55,000**

**Questions about the CA Membership:**

**ContactEGI@egi.utah.edu | (801) 581 - 5126**

**iCORDS Offshore**

iCORDS Offshore is EGI's data analytics service integrating geoscience data and offshore basins and wells. The data have been harvested from various sources and curated for easy use. iCORDS Offshore is available online for member companies and organizations.

\$40K/year for Non CA Companies  
 \$20K/year for EGI CA Members in 2024  
 Free for EGI Members in 2023
