

University of Utah & University of Houston Joint Technical Conference on Energy Geosciences and the Energy Transition

University of Houston Hilton Hotel | October 24, 2024

The 2024 Joint Technical Conference hosted by the University of Houston and the University of Utah's Energy & Geoscience Institute will delve into the latest research and developments in oil and gas, carbon management, hydrogen, renewable energy integration, and geothermal energy.

The conference aims to bridge the gap between academia and industry, showcasing how innovative research can drive practical solutions and advancements. Attendees will gain valuable insights into how these emerging technologies and methodologies can enhance operational efficiency, reduce environmental impact, and create new opportunities in the energy sector.

This is an opportunity for industry professionals to connect with leading researchers, exchange ideas, and explore collaborative efforts that can propel the energy industry forward.

Industry representatives will have sufficient time to meet with potential collaborators from both universities.

AGENDA HIGHLIGHTS

Continental Breakfast and Networking

Morning Technical Sessions

- Oil and Gas
- Carbon Capture, Utilization & Sequestration

Lunch Keynote - Scott W. Tinker

Afternoon Technical Sessions

- Hydrogen, Decarbonization, & Grid Resilience
- Geothermal Energy - Tim Latimer (FERVO)

Reception

REGISTER NOW

**After the conference,
watch the football game!**

**University of Utah at
University of Houston
Saturday, October 26.**
